

IVF FINANCIAL PACKAGE OPTIONS

When using an ICRM egg donor with a local Gestational Carrier

<p>Unlimited Embryo Transfer Option (SHARED CYCLE) \$37,000</p> <p>One egg retrieval and unlimited embryo transfers until live birth</p>	<p>Unlimited Embryo Transfer Option \$44,000</p> <p>One egg retrieval and unlimited embryo transfers until live birth</p>	<p>Unlimited IVF Option¹ \$51,000</p> <p>Unlimited egg retrievals and embryo transfers until live birth</p>
--	---	--

¹Valid for 3 years after first egg retrieval; donor compensation, anesthesia additional after second egg retrieval; PGT-A biopsy/testing fee may be additional after first egg retrieval. All viable or PGT-A normal embryos must be used prior to another donor retrieval in the Unlimited IVF Option. We do not guarantee gender or genetic origin of embryos. If PGT-A normal embryos are of non-preferred gender, a new financial package agreement may be entered.

Preimplantation Genetic Testing (PGT): ICRM will bill for additional embryos tested above 8 for a single IP, or 10 for 2 IPs after your cycle is complete. Each additional embryo tested is **\$250/embryo**

ALL OPTIONS INCLUDE THE FOLLOWING SERVICES:

<p><u>Intended Parents</u> New patient consultation* FDA exam and blood tests* FDA sperm freezing* Psychological evaluation* Genetic carrier screening tests*</p>	<p><u>Gestational Carrier/Surrogate</u> Medical record review and screening* (\$500 for each additional surrogate screened, \$200 for each additional chart reviewed above 2) Physician/nurse consults* GC and partner blood tests* IVF cycle medications IVF cycle ultrasounds* Pregnancy medication up to positive blood test Pregnancy blood tests* Obstetrical ultrasounds (2)*</p>	<p><u>IVF Cycle</u> Retrieval of oocytes* Identification of oocytes* Fertilization of oocytes with ICSI* Embryo blastocyst culture* Assisted embryo hatching* PGT-A biopsy and testing for up to 8 embryos Embryo thawing* Embryo preparation for transfer* Embryo transfer* Embryo freezing* First year of embryo/sperm storage*</p>
